PROFILE

Creative Front-End Developer with a knack for crafting user-centric interfaces that solve real problems. Leveraging expertise in HTML, CSS, and JavaScript to build engaging experiences. Eager to delve deeper into full-stack development for comprehensive solutions.

WORK EXPERIENCE

I-NET SECURE LABS, Chennai   *July 2024 - Present*

- Worked on a full-stack application using CodeIgniter and SQL, enhancing skills in both front-end and back-end development.
- Developed **I-WORK,** an internal company portal for managing employee updates, ticketing, and workload tracking.

Cyces Innovation Labs LLP , Chennai   *Apr 2024 - JUN 2024*

- Completed a Front-End Developer internship, focusing on responsive web applications with Next.js, Tailwind CSS, and API integrations. Collaborated on user-centric designs using Figma and developed sites for Truliv, PageSpeed Insights, and PayRentz.

FOCUS EDUMATICS - WEB DEVELOPER & TUTORING, Chennai   *2022 - 2024*

- Provided personalized online tutoring sessions to students in mathematics, ensuring comprehension and improvement in grades.
- Proactively initiated self-study in web development during downtime, learning HTML, CSS, and JavaScript.
- Leveraged acquired skills to create projects for the tutoring company's website, enhancing its online presence and functionality.

HMI - GRADUATE APPRENTICE TRAINEE , Chennai   *2020 - 2021*

- Dynamic Graduate Apprentice with hands-on experience in HMI assembly and shop floor operations.
- Proficient in collaborating with management and ensuring efficient processes. Committed to delivering exceptional results.

B.E.AUTOMOBILE ENGINEERING - IRTT, ERODE - 75%	*2015 - 2019*
HSC - AMHSS, Thiruvannamalai - 85%	*2014 - 2015*
SSLC - AMHSS, Thiruvannamalai - 95%	*2013 - 2014*

PROJECTS

Payrentz, a comprehensive e-commerce platform facilitating the rental and purchase of appliances like TVs and refrigerators in urban centers. Led the development and integration of **APIs** to streamline inventory management and transaction processing.

I-Work, an internal company portal using CodeIgniter and SQL for managing employee updates, ticket-raising, and workload tracking. The platform is designed to streamline communication and track employee tasks efficiently.

Material Tracker, is a system designed to manage material stock by tracking inflow, outflow, and dispatches to site projects. It allows for uploading material data, tracking stock levels, and monitoring material status details.

Truliv, a dynamic website specializing in booking rooms, holiday homes, and coliving spaces for diverse customer needs. Spearheaded the implementation of interactive web styles and animations using advanced CSS and JavaScript frameworks, fostering heightened user engagement and seamless navigation

PageSpeed Insights, a web application dedicated to monitoring and analyzing webpage performance metrics such as load times, responsiveness, and SEO factors. Implemented tools and features to provide actionable insights for optimizing website speed and enhancing user experience. Collaborated with SEO experts to integrate performance benchmarks and recommendations, ensuring websites meet industry standards and achieve higher search engine rankings.

HustleWave, is a web-based chat application built using Next.js and styled with Tailwind CSS, it offers users basic chat features such as real-time messaging, emoji support, and user authentication. Leveraging Firebase as the backend infrastructure ensures reliable data storage and synchronization across devices, enhancing user experience with seamless message delivery.

Focus Portal, is an employee portal project utilizing HTML, CSS, JS, PHP, and SQL to manage daily tasks. Allows task tracking and seamless access for employees.

DECLARATION

I have crafted this resume to accurately represent my skills and experience as a Front-End Developer.

YOUR'S SINCERELY,

MUTHU KUMARAN M
